

Sliding Scale Fee Schedule

In order to provide services to people of all backgrounds and economic situations, we have developed a sliding scale for those clients that might have some financial limitations or hardships. The sliding scale is based on total family income. Fees are due at the time of the session.

(Please Check)	Family Income	Per Session Fee	Intake
	Less than \$40,000 per year	\$70.00	\$85.00
	\$40,000 to \$80,000 per year	\$100.00	\$125.00
	\$80,000 and above	\$125.00	\$150.00

I verify that the income information on the sliding scale offered above is correct. I understand too that any "no shows" for sessions will be charged according the sliding scale.
