

Kingsport Counseling Associates, PLLC

Sliding Scale Fee Schedule

In order to provide services to people of all backgrounds and economic situations, we have developed a sliding scale for those clients that either do not have health insurance or access to benefits that would cover the cost of counseling. The sliding scale is based on total family income. Our regular per session rate is \$130. Intake fees are slightly higher to cover administrative costs. Fees are due at the time of the session.

(Please Check)	Family Income	Per Session Fee	Intake
	Less than \$40,000 per year	\$80.00	\$95.00
	\$40,000 to \$80,000 per year	\$110.00	\$135.00
	\$80,000 and above	\$135.00	\$160.00

I verify that the income information on the sliding scale offered above is correct. I understand too that any “no shows” for sessions will be charged according to the sliding scale.

Client Signature _____

Date _____

Therapist _____

(These fees are effective 3/01/2023 - They are subject to change. We will give a 30 day notification to clients using this sliding scale should they change)
